6 EPISODE OF

THE MASTER KEY

The sight of
This plan saved
Its maker's life.

"There is a blackness born of love as well as hate."

These two men loved different women. Yet the conflict of their passions wrecked both lives.

Read about it in this paper.

Then see the moving pictures produced by the Universal Film Manufacturing Company by special arrangement for this paper.

REX THEATER

Please hand us that \$

The nights are getting shorter.
Next Tuesday is "ground-hog" day.
Kale greens and hog jowl, can you imagine anything better.

The garden seed sent the Record for distribution, have exhausted.

Cheer up! What if you were a worm and had to live in a wild crabapple?

The old year tried to bring in side whiskers but the task was beyond its strength.

Hudson & Hughes can save you money on Patent Flour. Ask them and be convinced.

Quite a number from here tried to get to the Grand Opera at Lexington, but missed the train.

We wish to thank quite a number of our friends and subscribers who sent in the issue of January 7th, that we asked for in our last issue.

It costs money to run a paper, pay postage and employ experienced men. Don't get angry at us, if you fail to get your paper. You know the reason why.

As usual: Hudson & Hughes have the best selection of High Grade, Clover, Timothy, Blue and Orchard Grass seeds, and best of all, their prices are right, if quality is considered.

A splendid article from the pen of Mr. C. S. Roop on "Longer Terms For Rural Schools" appears in this issue of the Record. Mr. Roop is on the right track and his article is well worth reading.

In the past month several hundred dollars worth of sheep have been killed within a radius of three miles of this town. There ought to be a systematic warfare carried on against the worthless dogs of the county.

No matter how many pledges a candidate or party may make, they cannot be successfully redeemed if the way is beset with lobbyists, and we should be for the man who says he will help us get rid of these parasites.

SPECIAL FEATURE.

The managers of the Rex Theater announce that they will begin another feature film at this house on Saturday night, Feb. 6th and that it will be one of the best that has ever been shown in the town. Next issue of the Record will give details. Watch for it.

FISH DINNER.

The "Circle Girls", knowing how to please the "inner man", on Court day served a menu consisting of fried fish, coffee, corn bread and pickles. These girls are all good cooks and those who have not already captivated a man stand a good chance of being taken captive after such a dinner.

A CORRECTION.

Last week in mentioning the Bryantville school we made a mistake in saying Miss Elizabeth Bryant was assistant. Miss Bryant was given the school but on account of the attendance being so large Prof. B. L. Siple was employed and together they are teaching this up-to-date school which is the pride of Bryantville.

AND NO HOTEL.

Assessor J. S. Baughman, reports that the total taxable property of Boyle county is a little over \$10,000,000, which makes the per capita of wealth in the county \$666, for every man, woman and child, both white and colored, said to be the highest per capita wealth in the state. With all this wealth they can't raise enough money over there to build a decent hotel. Shame on you.

FALSE REPORT.

It was reported last week that a case of small-pox was over the barber shop of Mr. Maic House, which was erroneous and we wish to correct it in justice to Mr. House. Reports of this character have a tendency to hurt business, whether true or untrue and while any one knowing of a case of small-pox in the county, should report it at once, but don't circulate it unless you know it to be a fact.

THE GOOSE HANGS HIGH.

Everything is ready and the goose hangs high for the feast that the "Circle Girls" will serve to the hungry horde to-morrow evening.

Ten big fat squawking wild geese have already been slain and will be served at fifty cents a plate by these young ladies to the business men of the town. Over fifty plates have been spoken for and the dinner will be served promptly at six o'clock in the room adjoining the Opera House.

PIE, MINCE, ALL HOMEMADE

The B. M. of the Record has had a pie given him—mince pie, thick juicy and conducive to fond memories. It was not an ordinary chef d'oeuvre, it was truly "homemade". The flour was grown and ground in Lancaster township. The shortening was the whitest offering of a prize Garrard Co., "snobby snouter".

The mince meat? Well, the pure food inspectors didn't inspect or stamp this article as it was made by Mrs. N. Miller, which means it didn't need anything but eating, which was done in very short order.

AIN'T IT THE TRUTH.

"Ah was thinkin'," said Uncle Bob Overstreet, "What a nice, peaceful-like world dis here universe would a been if it wasn't for de movements of de human under jaw."

WHO?

Who hath dried apples? Who hath baking powder without end? Whose groceries are nix and stale? He that sitteth like a bump on a log! He that knoweth not the way to the printers' office.

BUSINESS CHANGE.

Mr. W. B. Lackey, who has conducted a general merchandise store at the corner of Richmond and Lepot street, for several years, has sold out his stock to T. M. Howard and possession was given Tuesday.

"FOXY GRANDPA."

President Wilson declined to put forward his name as a suitable one for grandson Sayre, and the boy's name is Francis.

When we think over the John C. Breckinridges, the Henry Clays, the John J. Crittendens, the Thomas Jeffersons, the "Gawge Washin'tons" of various colors and conditions, not forgetting the crop of Grover Cleverlands, William McKinleys and other obscure bearers of well known names, we can understand why the President insisted upon a distinctive name, despite the honor that threatened the new arrival as the bearer of the name of a President. —State Journal.

LOOKS GOOD FOR LANDRAM

The following dispatch from Washington will interest the friends of Lewis Landram in this county and all are wishing him success in landing this just claim.

"The House Committee on Claims yesterday reported favorably the bill to carry out the findings of the Court of Claims in the case of Louis Landram, administrator of the estate of the late William J. Landrum, who was the collector of internal revenue for the Eighth district of Kentucky from July 1, 1873 to July 4, 1885. The claim recommended to be paid amounts to \$5,346.29 and represents a part of the unpaid salary due the former collector."

GOOCH-DUNN.

Altho it has been suspected for some time, the friends of Miss Mary Elizabeth Gooch and Mr. Benjamin Armstrong Dunn were surprised when it was known that they were married Wednesday afternoon January 27th, at the home of the bride's parents.

The Rev. F. M. Tinder of Lancaster performed the ceremony in the presence of the two immediate families.

The bride, who is a daughter of Mr. and Mrs. W. G. Gooch, looked her best in a traveling suit of blue with hat and gloves to match. She is a very estimable young lady and has for the past few years been an efficient teacher in the schools of her county, while the groom, who is a son of the late W. G. Dunn, is in every respect a splendid young man of the Markersburg section of Garrard county.

After the ceremony, Mr. and Mrs. Dunn went immediately to their home where they are being showered with good wishes and congratulations by their relatives and friends.

SMALL CROWD

Not Much Doing Here Court Day.

One of the smallest court day crowds seen here in a long time was that of last Monday. Only a few head of stock were on the streets, those being mules and very few changed hands as no buyers put in their appearance. A few of the local dealers took in some bargains in the mule line. Mr. Jim Sutton bought a nice pair of S. L. Kich for \$285. W. B. Burton bought a nice artillery mule of Jesse Gully for \$125 and James Robinson a mule colt for \$25. There were about 75 cattle on the market, while trade in this line was rather slow, practically all sold from 64 to 74 cents. Center Brothers of Paint Lick, bought a cow of Pruitt Thompson for \$31. R. L. Burton, of lower Garrard bought 20 head of heifers and calves, of A. H. Roberts at an average of \$32 a head. Shirley Hudson a 600 pound yearling for \$40 of J. D. Pope.

A SAD DEATH.

Prof. J. H. Burns, of the Lancaster colored graded school, died Sunday afternoon, after an illness of ten days of pneumonia. This was the fourth year he had taught in Lancaster and by his polite and courteous treatment to all with whom he came in contact he had won a host of friends, both white and colored.

He was a member of the first Baptist church of Frankfort and had at one time served as pastor of the church here.

He was well educated, having graduated at Frankfort. His death is a great loss to his people as he stood for all the high things of life and his precept and example meant much to them. They have lost a friend whose life was devoted to their needs and whose first thought was for their welfare. He was twenty seven years old. After the funeral services which were conducted by the Rev. W. T. Silvey, of Frankfort, the interment took place in the colored cemetery Tuesday afternoon, at two o'clock.

WORLD'S RECORD

FOR CHARITY.

In the United States to date, \$14,060,000 have been given to the relief of the suffering Belgians. Forty seven ship loads of food and clothing have been delivered, or is in the process of delivery, and committees in thirty-six states are busy filling the "American Fleet of Mercy". This is the world's record for charity.

Quite a number are interesting themselves in the "Committee of Mercy" fund, which goes to all the war sufferers and we hope to see Garrard county come up with a creditable offering. The following has been donated to date.

EUGENIC BILL IS PASSED

BY INDIANA LEGISLATURE.

A certificate of physical perfection will be required by prospective bridegrooms in Indiana hereafter as Senator Neal's eugenic bill was passed by the Senate by a vote of 32 to 12. It was amended by Senator Neal so that only the prospective bridegroom is compelled to present a certificate from a physician showing that he is eligible physically for matrimony. Senator Neal spoke in behalf of the bill, saying that its enactment would be a long step toward reducing the number of blind and unfortunates in Indiana.

EXPORTS GREATER THAN

ANY WERE A YEAR AGO.

Five times as much wheat and six times as much corn were exported from the United States in December as in the same month in 1913; flour exports increased more than 68 per cent for the same period; fresh beef increased more than twelve fold, and, generally, the exports of "breadstuffs," which includes practically all the staple grains, increased five times.

These figures were disclosed in a preliminary statement from the Department of Commerce, issued in response to many inquiries as to what extent foodstuffs were going abroad, with resulting abnormal prices at home.

PARIS IN DARKNESS FOR

FEAR OF ZEPPELINS.

Paris has definitely abandoned all claim to the title of "City of Light", and assumed the shroud of mourning.

According to police regulations, emphasized by visits from officials to all business houses, no unshuttered or uncurtained windows are allowed to emit light, and no cafes or shops may brighten the sidewalk with gas or electric radiance in their windows. Even the windows overlooking courtyards have to be shaded while the wet boulevard pavements reflect faintly the few lamps burning here and there.

The public have taken the orders calmly with the remark that greets each new inconvenience: "This is war. After all one is worse off up there."

WAR TAUGHT TO GERMAN

PUPILS AS FAST AS IT

DEVELOPS

The German educational authorities are taking care to teach children the history of the war as fast as history is made. The Prussian ministry of education has just sent a circular letter of instructions to the school inspectors pointing out that the hour devoted to teaching history must be devoted principally to giving pupils a clear idea of the course and development of "the great war."

"There must be awakened in the children," says the circular, "an understanding of the serious and thrilling time in which they are living. While everything must be kept out of the schools that might implant in the hearts of the children overweening self-conceit or contempt and hatred for other peoples, still they should be filled with a joyous and conscious pride that they are members of a great people who are making heroic sacrifices in a just struggle against overwhelming odds."

GOOD BUYERS.

Tobacco Growers of The County Appreciate Their Fair Dealings.

The Lancaster Tobacco Warehouse, under the management of Billy Speth and Jake Graw, have purchased up to date over 1,000,000 pounds of Garrard county tobacco and have paid prices that have satisfied every customer and we have yet to hear a complaint from anyone that has sold to these popular buyers. To show the utmost confidence the people of this county have in these men, any number of crops are unloaded on their floors before a price is ever agreed upon, being willing to leave it to their honesty and fair dealing what the price shall be. The Garrard county appreciates the fair dealings of these people is shown by the number of pounds they have bought.

FAMILY CARES

This Information May Be of Value To Many a Mother in Lancaster.

When there is added to the many cares inseparable from the rearing of children that affliction of weakness of the kidneys and auxiliary organs, the mother's lot is far from a happy one. This condition has often been corrected by the use of Doan's Kidney Pills. When relief comes the mother's burden will be lighter and her home happier.

Mrs. H. G. Crutchfield, Stanford St., Lancaster, Ky., says: "My boy was greatly troubled by his back and kidneys. He did not have proper control over the kidney secretions, which caused no end of annoyance. The child also looked badly and I was considerably worried about his health. I heard of Doan's Kidney Pills and began giving them to him. He is now a great deal better."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Crutchfield recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

PREACHERSVILLE

Mr. J. H. Rigby is still indisposed.

Miss Lena Arnold visited Miss Nora Smith.

Master Homer Brown was visiting Joe Press.

Miss Ruby Parrish has been sick but is better now.

Miss Mary Pettus visited Miss Jean McKechnie Sunday.

Mr. F. L. Thompson has been quite ill but is better now.

Miss Gertrude Adams has been visiting Miss Talitha Bell.

Mr. Ed. Stevens and family have moved to Stingy Creek.

Mrs. Quiney Naylor has been quite sick of stomach trouble.

Miss Plummer, of Quail, has been visiting Miss Nora Smith.

Mr. David Stephens is ill of pneumonia at his home near Sweeney.

Miss Carrie Naylor visited Misses Luna and Julia Brown last week.

Mr. Newton Gill and family have moved to their home on Plum St.

Mr. Jones L. Anderson has been confined to his room for several days.

Mrs. W. H. Cummins, who has been quite sick, is much better, we are glad to state.

Mr. James Miller and family of the Lawson neighborhood, have moved to the old Horton place.

Mr. Roscoe Colyer sold his tobacco at Danville for 84 cents per pound. He

had over 5,000 pounds.

Hudson & Hughes can save you money on Patent Flour. Ask them and be convinced.

Miss Ellie Middleton, of Gilbert's Creek, has been the attractive guest of her cousin, Miss Jamie Pointer.

Mrs. Minnie Whitaker, of near Greensburg, Ind., is visiting her parents Mr. and Mrs. S. D. Carpenter.

Our school taught by Profs. Johnson and Hutchins closed on Friday. These gentlemen taught a good school.

As usual, Hudson & Hughes, Lancaster, Ky., have the best selection of High Grade, Clover, Timothy, Blue and Orchard Grass Seeds. Their prices are right, if quality is considered.

Master Willie Naylor the bright little eight year old son of Mr. Tom Naylor fell off a loaded wagon and the rear wheel passed over his arm near the shoulder. At the time it was thought the member was only bruised. About five days after, when a physician examined the lad's arm, it was found to be broken. After being set properly it is getting well.

Prof. Cyrus Johnson, who has been principal of our school the past two years, left last week for Georgetown where he will enter school preparatory to the ministry. We regret to lose this estimable christian gentleman from our midst. Besides being a school teacher, second to none, he has been superintendent of the Baptist Sunday school for over a year and was an active member of the Baptist church, being able to act in any capacity. He was also a live member of the Masonic body at this place. We believe he will succeed as a laborer in the Master's vineyard and know he will be followed by the best wishes of his host of friends here. Our loss is Georgetown's gain.

HEALTHY HAIR

SOFT AND FLUFFY.

Beautiful hair does not just happen but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, string, lifeless, and full of dandruff, Parisian Sage, an inexpensive tonic sold by R. E. McRoberts, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. All dandruff is entirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry or brittle, Parisian Sage immediately removes the cause and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

This delightful tonic is a real necessity and will not fail to give a lasting benefit to your hair and scalp.

SIMPLY BREATHE IT

That's the Way You Use Hyomei, the Safe Catarrh Remedy.

The most pleasant, easiest, harmless, and the really sensible method for the cure of catarrh is Hyomei, which can be had from any drug store. Just put twenty drops of the liquid in the small inhaler that comes with every complete outfit—then breathe it. A few minutes' use almost instantly clears the head and stops that annoying sniffing.

When using Hyomei every particle of air that enters the breathing organs is charged with an antiseptic, healing balsam that destroys the catarrh germs stops the mucous discharges from the nose, relieves the irritation and quickly heals the sore and inflamed tissues. The first day's use of Hyomei will show a decided improvement no matter how distressing the trouble.

Catarrh, which usually begins with a neglected cold, often becomes a very serious ailment, so don't wait but start using Hyomei today—it is inexpensive and R. E. McRoberts always sells it on the "No-cure-no-pay" plan.

MARKSBURY

Clay Clark sold a 700 pound steer to Jack Bourne for 50c.

Mr. J. S. Parks has re-rented the Carrier farm for the ensuing year.

Miss Bettie Royston is at home after a week's stay with Miss Sallie Lou Myers.

Hudson & Hughes can save you money on Patent Flour. Ask them and be convinced.

The Junior Missionary Society will meet at the parsonage the 1st Saturday afternoon in February.

Rev. Mahan went to Mt. Helron Saturday and Sunday to fill his appointment at that place.

Fisher Hughes has recently purchased the house and lot and blacksmith shop from Bob Scott for \$1250.

Notwithstanding the extreme weather and bad roads Sunday morning, a splendid Sunday school was enrolled, 41 pupils were present.

Miss Lee Scott of McCreary who has been the guest of Miss Annie Blanks returned home, accompanied by Miss Blanks for a short visit.

Mrs. Parks and daughter Miss Mary of Missouri, arrived here last week and are now the guests of Mr. and Mrs. Trumbo at Camp Robinson.

Mr. and Mrs. Cecil Beatty have returned from Richmond where they have been to visit their son, Master Z. P. Beatty who entered school there.

As usual, Hudson & Hughes, Lancaster, Ky., have the best selection of High Grade, Clover, Timothy, Blue and Orchard Grass Seeds. Their prices are right, if quality is considered.

The Ladies Working Society is taking subscriptions for "To Dava's" magazine. This is strictly a woman's periodical, containing good ideas for the household and kitchen, with a fancy-work and fashion department. This would be a fine opportunity for those living at a distance who still have the membership at this place to help in this work. The low price of the magazine is 50 cents.

Dangers of a Cold.

Do you know that all the minor ailments which are by far the most dangerous? It is not the cold themselves that you need to fear, but the serious diseases that they so often lead to. For that reason every child should be gotten rid of with the least possible delay. To accomplish this you will find Chamberlain's Cough Remedy of great help to you. It loosens a cold, relieves the lungs, aids expectoration and enables the system to throw off the cold. For sale by all dealers.

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the rawness, the pain of skin disease, have been enabled to sleep by a soothing fluid washed in by the nurse's hands?

To do the work, D. D. D. prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

THE SUPERVISING NURSE of one of our prominent Catholic institutions (nurse and institution on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many serious sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON frankly writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

And it certainly takes away the itch at once—the moment the fluid is applied. The skin is soothed—calmed—no thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

Holland, Sweden, Norway and Denmark, four countries of Northern Europe whose populations are noted for their devotion to peace, to industry and to commerce, have suffered immense losses through the belligerency of their European neighbors.

The Hagblad, the leading conservative newspaper of Sweden, in its comment upon the preliminary reply of Sir Edward Grey to the protest of the United States, declares that it indicates a determination upon the part of Great Britain to adhere to the harassing policy of interfering with and restricting the legitimate commerce of neutrals.

The people of Denmark, of Norway and of Holland feel just as the people of Sweden do about this assumption of the belligerents that they have the right to determine what shall be imported or exported by neutral countries while they are warring.

Great Britain is entitled to every consideration, every right that the Republic of Panama has upon the high seas, and granting her a single iota above the weakest nation in the world is entitled to it but a concession to naval and military power unworthy of any independent nation to agree to.

Great Britain possesses no just right to say what neutral nations shall export or import.

We go further, and say that no belligerent nation should be conceded or granted the right to stop, examine, search or seize the peaceable merchant vessel of a neutral nation upon the high seas, or to mine the waters of any great ocean beyond the agreed maritime jurisdiction of three miles limit.

The agriculturists of the United States, the merchants and manufacturers of the United States, the business men of the United States are entitled to the freedom of the high seas for the transportation of commodities, and of all the nations of the earth but one is denying that right today, and that one produced the war of 1812 by its same arbitrary courses along the same lines.

MIDWINTER ADVERTISING.

January and February are a period when the public looks through the newspaper advertising with keen attention.

A great many people have formed a regular habit of delaying purchases until this time of year. They know that most merchants will give unusually good bargains in midwinter, to save carrying goods over until another year. A merchant that does not get into line and tell the public through the newspapers what he is doing at this time of year will find his trade very slack. But a simple statement of the good values that can now be found is almost any enterprising store will be read with eager interest. The store will find that it is doing an excellent business even at a dull period.

MARRIAGE LICENSES.

County Clerk Hamilton granted marriage licenses to the following this week. Mr. Carlton Hunt, 26, to Miss Nellie E. Poyner, 22, of Paint Lick. Mr. Luke Irvine, 22, to Miss Rosa May Brock, 16, and Mr. Hertram Brown, 24, to Miss Lena H. Kinnard, 21, of Lawell.

A TOOTH PULLER IN VERSE.

Lines written by Doc. Denny.
There's nothing like an aching molar
To make a man's life full of dolor,
He wants to fuss, he wants to fight,
And if he could he'd like to bite,
Don't let the toothache make you grim
Or put your business on the bum;
Just run to our shop and shout,
Hey, Doc, come jerk this darned thing out.

WORTHY COLORED MAN DEAD.

Uncle Harry Mullins, a worthy colored man, died at his home Monday night after an illness of several months. He was honest, faithful, and industrious and leaves many friends who will regret to learn of his death. He worked a number of years for Mr. H. E. Hudson. This generation of "old timers" is fast passing away, he was not only a faithful servant, but a good citizen and served his country in time of war.

Woman's Forward Movement Closed.

With \$8,000 raised, the Woman's Forward Movement, organized to raise \$20,000 for the Literacy Commission, has closed. Expenses of the organization are to be deducted from this amount which will leave from \$4,000 to \$5,000. The remainder of the \$20,000 will be raised by the Literacy Commission will be raised by Mrs. Cora Wilson Stewart and Dr. J. C. Crabbe, a committee appointed by the Literacy Commission last May to raise money.

Oklahoma To Have An Illiteracy Commission.

Superintendent R. H. Wilson is preparing to present to the legislature a bill, which has for its purpose the banishing of illiteracy from the State of Oklahoma. He is following, more or less, the plan adopted by the State of Kentucky, which was brought about by the activities of Mrs. Cora Wilson Stewart. This is in line with Superintendent Wilson's policy to devote the larger portion of his time during the next administration to the betterment of rural schools.

MOTHERS' ATTENTION.

Don't fail to attend the display of Boys' Apparel in the parlors of the Kensington Hotel, Wednesday and Wednesday night, February 3rd, Wash Suits, Woolen Suits in Oliver Twist, Balkan and Russian House and dozens of other smart models. Balmaceda Coats for Boys and Girls, Palm Beach Suits, Straw and Panama Hats, etc. No admission charged.

GOOD HOGS.

S. H. Aldridge, of Lancaster, who formerly lived at Hyattsville, recently sold and shipped the following, pure bred Hampshire hogs. One boar to D. W. Beam, Creighton, Neb., one boar to Cranford and Cranford, Sasser, Ga., one gilt to Floyd Miller, West Brookline, Ill., one boar to Ralph Tuglie, Emanuel, Ky., and one boar to Richard Cobb, Danville, Ky. Mr. Aldridge received a good price for all of these, showing it pays to raise good, pure bred stock.

WORKING FOR BELGIANS.

When Mrs. Ellen Owsley was in New York visiting her brother, Mr. Ben Letcher, she became very much interested in the work she saw being done for the war sufferers. She worked all the time she was there, knitting and sewing and helping different societies finish the work they had pledged. Since coming home Mrs. Letcher has sent her the goods and patterns for a lot of baby clothes, Mrs. Owsley has them about completed and they are curiosities in as much as they do not look like the clothes our babies wear, the original patterns having been sent from Belgium.

RURAL CHURCH INSTITUTE.

The Rural Church Institute which is to be held at Providence in Jessamine County, Feb. 8 to 12th, is assuming proportions and promises to be one of the most interesting institutes ever held in the state. From the fact that it is to be state-wide a large attendance is expected and everything is being done to entertain the delegates, from these rural churches, including only those from towns of 1000 population and less. The program for the week is very interesting and includes some of the very best speakers in the state and out of the state. The institute is under the auspices of the American Christian Missionary Society and the Kentucky Christian Bible-School Association.

WOMAN'S CLUB MEETING.

The Woman's Club, of the Fourth District, met in Danville today. Quite a number of members of women from our local club went over. Mrs. George Robinson is chairman of this meeting and Mrs. Robert Elkin will report the years work of the Lancaster Federated Women's Club. This is the second meeting of the kind to be held in the state, the first one having been held at Paducah last week. The work has been divided into District work in order to bring more women in closer touch with the work and the State officers. Mrs. R. H. Lacy, president of the State Federation, is an honor guest today.

COTTON QUILTS HIGHLY PRIZED.

A revival of interest in the old cotton quilts of our grandmothers' times is promised.

In fact, a number of thrifty housewives with old quilts that have come down to them from their mothers' mothers have already seen the possibilities of these pretty quaint old things when it comes to giving a pretty home atmosphere to the home.

So great has the interest in the old quilts become that a number of Lancaster housewives have been devoting spare moments since cold weather came to piecing quilts. They are made in the plain crazy-quilt effects, in the favorite hit-and-miss and snake fence patterns, but since the sewers have their hand in at the trick, some of the more intricate designs, including the sunflower and bleeding-heart, the rose of Sharon, the princess feather, old mids puzzle and other patterns are being pieced.

The fad has spread so far that two women of wide acquaintance here have asked their friends to save for their quilts all the bright colored pieces of cotton goods they may have. It is a pretty fad and it is good news to hear that the art of quilt making is not going to die out.

CLOSE RANGE OF "BILLY" SUNDAY.

The New York Times last Sunday published what it terms a close range view of "Billy" Sunday and his Philadelphia revival, written by a member of the Times staff. As he seems to have gone about his task without prejudice for or against the evangelist, extracts from it are published herewith as giving an onlooker's idea of Sunday and his methods:

A trim and agile man of five feet eight, weighing 145 pounds, aged fifty-three, blue-eyed, with scanty brown hair turning gray, in a well-pressed gray sack suit and new patent-leather boots, with a polka-dot bow tie, whose face was red and glossy, whose collar was melting with perspiration, holding a large white handkerchief which he used as a mop, now kicking, now laughing, now leaping on an unoccupied kitchen chair, now hurling himself down to strike with fist the platform under foot, now prancing, now beating fist on palm, now whirling arms, this man, in a hoarse and somewhat rasping voice, which he shook from his throat in volume which was adequate with obvious and unattractive effort, shouted:

"If Mother Edwy rises before the resurrection, I will eat a polecat for supper and wash it down with whiskey."

"We have Hilaratskyism. This is the reincarnation of somebody who lived in other ages, and has come back and is walking up and down the streets of Philadelphia. Don't shy a bootleg at that tom cat doing a midnight stomp on the back fence. That is your neighbor's daughter, who used to take music lessons."

"Don't you have the audacity to sit there and call my preaching out of date, because I preach God's truth. Don't you insult God Almighty like that, you miserable nut."

"Today the devil works through the achism and ism. He is a smooth guy. He is on to his job."

"Whoever says Jesus Christ is not the Son of God is a liar. The Bible says he is a liar and so do I."

"If you used the word evolution to describe a protoplasm from which men and women came through the concurrence of atoms, you and I will look horns, for I don't believe your old bastard theory."

And the hoarse-voiced man shouted many other phrases unusual in religious addresses.

Sunday began his sermon at 7:55. He stopped at 8:35 and began a prayer. At 9:02 he served notice that he was going to call for converts by asking: "How many will join the trail hiking?"

"Hitting the sawdust trail" is applied in Sunday's meetings to the walking by converts down the two main central aisles of the Tabernacle wide sawdust aisles to the high platform, where Mr. Sunday shakes hands with the oncoming men and women.

STANLEY'S ANNOUNCEMENT.

Hon. A. O. Stanley makes clear the issues upon which he will go before the people in his campaign for the Democratic nomination for governor. The prime issue will be his war upon "invisible government." He says if he is elected governor he will turn the calcium light upon the lobbyists and drive them from the capitol, as the Son of Man drove the money changers from the temple.

So long as this goes, which Woodrow Wilson calls "shadowy forms," is permitted to roam at will in and about the halls of legislation, Kentucky will get little of the kind of legislation she needs without making costly sacrifices and concessions to the "invisible government," whose ubiquitous members are met at every turn in the capitol lobby, even at the very doors of the committee rooms.

The advocates of reform measures have, in the past, found themselves blocked by the lobbyists, with whom they had to make terms or suffer the defeat of their bills. There is no questioning the importance of clearing the capitol of this baleful influence if the people are to have the character of reform legislation of which Kentucky stands so greatly in need.—Owensboro Inquirer.

ANSWERS TO QUESTIONS.

I work in a bank with a young man that is getting to be a Jude. He wears a collar now and carries a white handkerchief, what does it mean?—R. T. E.

Tell him what the young ladies name is, "Jude".

I would marry but I am afraid my wife will nag at me and blow me up occasionally, do you think I am too sensitive to marry?—R. V. A.

No, to be nagged at and blown up by a beautiful being all your own, is, to my mind, the happiest privilege of matrimony.

I have a great deal of trouble with eggs breaking in shipping, can you suggest a remedy?—H. B. N.

Yes, buy nothing but square eggs, which fit the little compartments in egg cases and do not have to be packed with sawdust or excelsior.

Wary of being the target for the slings of arrows of punsters, and deciding there is no such thing as a "punster conscience" I have decided to retire from public life, what business would you advise?—H. W.

Try pork packing.

Are we really going to construct locks on our roads so as to make them passable?—J. M. F.

No, we are going to use these roads or trenches, as they are now called, for a great sewer system.

In speaking of an automobile why do you always speak of it in the feminine gender, as "she"?—W. H. B.

Because it is so hard to manage and so expensive.

What is your idea of a perfect gentleman?—C. A. A.

My idea of a perfect gentleman is one who has sufficient self control to refuse to talk about the conditions of his roads as he is.

How can I get rich quick?—H. V. B.

Sell ice in summer and coal in winter.

Do you think being in love is any proof of insanity?—H. A.

No, only circumstantial evidence.

What did the road machinery that has been standing out most all winter on the vacant lot near the shipping pens, cost the county?—T. P.

About \$10,000.00.

THE MASTER KEY.

The managers of the Rex Theatre say if you were deprived of seeing the first parts of this interesting serial picture to read this and get in on it. Enjoy the story in motion pictures every Tuesday night.

"Tom Galion, owner of the Master Key mine, dies, leaving his property to his daughter, Ruth, in care of John Dorr, the mine engineer, whom Ruth loves. Wilkerson, superintendent of the mine, plots with Jean Darnell, an adventuress with whom he is in love, to deprive Ruth of the mine. Ruth goes to San Francisco to meet George Everett, a wealthy friend of Dorr's, to borrow money on the mining property to pay for further development work. Mrs. Darnell meets her, introduces her to a man whom she falsely represents as Everett and takes charge of her in San Francisco. Hearing nothing from Ruth, Dorr becomes alarmed and goes to San Francisco, whither Wilkerson has preceded him. Meanwhile Ruth, in a hotel, hears Mrs. Darnell and Wilkerson plotting against her. She calls for help, but is hurried out of the hotel by her captors, who conceal her in the home of a Chinese acquaintance of Wilkerson's. Dorr begins the search for Ruth with the aid of a detective. They trail her to Sing Wash's house, which they enter by force. Sing Wash forces Ruth to flee with him, but Dorr takes up the pursuit and rescues Ruth. Wilkerson seeks Pell, a thief, to assist in the conspiracy. He prepares to steal Ruth's valuable papers."

Ruth discovers Pell stealing the papers and screams for help. John Dorr hears the call and bounds in the room just as Pell jumps out the window which opened on a fire escape. John swung himself out on the ladder and climbed after the unknown man.

EMMET V. PURYEAR.

ATTORNEY AT LAW.

DANVILLE, KY.

Commonwealth's Attorney
Thirteenth Judicial District

January, 11th, 1915.

To the Democrats of the Thirteenth Circuit Court District.

Gentlemen:

Two years ago you elected me to the office of Commonwealth's Attorney of this District to fill the part of the unexpired term of Judge Hardin, he having been elected to the office of Circuit Judge.

I am now a candidate for the full term, and respectfully solicit the support of each and every voter.

The men who have served on the Grand and Petit juries in this District in the two years past, will, I am sure, bear me witness that I have faithfully and with diligence discharged my duties.

I am asking you to elect me to the full term in the office I now hold. 1st. Because with increased experience and the knowledge I have of conditions in this district, I believe I am better qualified than ever before to render you efficient service. 2nd. Because I desire what every faithful servant who has preceded me in this office has received, without exception,—an endorsement of his work. Judge Hardin, whose unexpired term I was elected to fill, was re-elected to the office of Commonwealth's Attorney second time as an endorsement of his work. Judge John Sam Owsley, who preceded Judge Hardin as Commonwealth's Attorney, was elected and re-elected, having held the office continuously ten years.

As I shall be continuously busy in Court for some time, and unable to devote time to my canvass, I will appreciate anything my friends may do in my behalf.

Again soliciting your support, I am,

Respectfully

SCHOOL NOTES.

(By Wm. F. Miller.)

"New Fad" Seniors, "Derby Hats".

Monday being such a bad day quite a number of county pupils were absent.

Miss Anderson's room conducted Monday morning exercises, which were very much enjoyed by the school.

Last Wednesday ended the 15th month school work, Thursday and Friday were given for the mid-year examinations.

Mr. and Mrs. J. E. Dickerson, and Mr. Coy Sanders were Monday morning visitors at our school. Several others were present Monday but we were unable to get their names.

The Menial training Department of the High school, will do any kind of repair work in their line at the school. They will do a first class job and will not undertake anything to large, so you may be assured of perfect satisfaction. A small sum will be charged and what ever made by the department will be invested in tools. Call Miss Morris who is at the head of this.

Since the beginning of the 2nd Term quite a number of new pupils have entered, they are: Elizabeth Ogg, Carrie Aldridge, Ida Mae Sanders, Nancy Manuel, Ruby Cress, Virgie Oakes, Simpson Parks, Virgie Conn, Minnie Conn, John Henry Huddar, Charles Bourne, Louis Duller, Joe Bratton, Clarence Oakes, John Parks, Clarence Conn, Wm. Walker, Kathleen Ogg.

Honor Roll for the month ending are as follows:

Mildred Beazley, Gladys Frisbie, Mary Owsley, James Sims, Bernice Champ, Mary Davis, Bowman Grant, Clay Miller, Clayton Morrow, Nellie Rigby, Carrie R. Higgins, George W. Lawson, Sallie C. Gregory, Laverne Dickerson, Jane Haselden, Helen Gulley, Anna L. Poff, Minnie Jennings, Paul Morrow, Samuel Elliott, Eugene Dunlap, Hebecks Siler, Hazel Lyons, Elsie Carrier, Louise Taylor, J. O. Rogge, Henderson Rogie, Elizabeth Dudley, Linda Jennings, Lottie Jennings.

The 1st half year just ended resulted in promotion throughout the school, the B's went to A division and A's to one grade higher.

PAY YOUR WATER RENT.

Some people are under the impression that if they pay their city taxes this will suffice, forgetting that the water rent is just as important, in fact, from this fund the water system of the city is supported and unless your water rent is paid the water will be cut off. There are some who have not yet paid their taxes and unless this is done your name will be advertised and property sold for taxes. Pay your taxes and water rent and save further embarrassment and costs.

L. E. Herron, Marshall.

Crop At The

PLANTERS HOUSE

AVERAGES

\$24.35

Jeff Pendleton of Garrard County sold yesterday at the Planters House his crop of 2805 pounds for \$682.92, being an average of \$24.35 per hundred pounds. This is the highest crop average made on any market this year.

There were several crops in this case which averaged about \$20.00 round, as follows: Jeff Pendleton of Garrard, 160 lbs. at \$9.75, 410 at \$14.00, 250 at \$15.00, 330 at \$18.25, 380 at \$25.00, 200 at \$28.00, 60 at \$28.50, 290 at \$30.00, 200 at \$41.00, 300 at \$41.00, average \$24.35. Will Lane of Garrard, 90 lbs. at \$8.00, 265 at \$14.00, 170 at \$14.00, 215 at \$14.50, 165 at \$22.50, 115 at \$23.00, 335 at \$25.00 average \$21.10. Carl Pendleton of Garrard 3805 pounds averaged \$11.16.

We will finish selling this sale on Wednesday morning and there are several good crops yet to be sold and we would suggest that as many tobacco growers, as possible come and see the balance of this sale.

The above mentioned crops were fine tobacco, but we believe that the splendid light at the Planters House has something to do with the way tobacco sells and if you have a fine crop, try us with a load and you will be convinced. Any way, you know that you get first class treatment when you bring your tobacco to J. Leslie Knight and James C. Stone, who are managing the PLANTERS HOUSE. Mr. Joseph Kelly is representing this house in Garrard County.

POISON OF NICOTINE.

It Affects the Coronary Arteries and Produces Tobacco Heart.

"Tobacco Heart" is a condition well known to physicians. It is really a phase of arteriosclerosis, due to excessive smoking, and is generally characterized by angina pectoris, a severe pain in the chest. The New York Medical Record, commenting on some statistics published in Germany by Dr. J. Pawlinski, says the important conclusion to be drawn from them is "that tobacco has a certain, possibly a specific, affinity for the coronary arteries." These are the arteries of the heart itself, those that supply its muscles with blood.

That nicotine is a powerful poison has long been known, but there has been a wide divergence of opinion as to whether tobacco smoke contains nicotine or not. The investigations of Zalkind and Zolnowski prove that it does. The quantity of nicotine absorbed by the body from tobacco smoke is probably small, and if smoking be indulged in with moderation it will not injure healthy adults, but when carried beyond the limits of moderation or when indulged in by young people it is certain to do harm to the heart.

Its effect is to cause a considerable thickening of the inner membrane of the coronary arteries, a pronounced degeneration of their middle coat, which is composed of muscles, and marked changes in the muscles that contract and expand the heart, thus bringing about disturbances of its rhythmic beating.

EGGS AND THE HEN.

Life Work Nature Has All Laid Out For the Young Chick.

"There is water aplenty in a fresh laid egg, but no more air than there is in a hammer," said a dealer in eggs. "So long as you can keep air out of the egg it will remain sweet and fresh, but no one has ever succeeded in keeping it out by far means more than six days. The oxygen is bound to find its way through an eggshell's pores, and the only way to save that egg then is to eat it. It sounds funny, but the moment you give an egg fresh air that moment you ruin its health."

"A good, healthy hen—not speaking of any particular star breed, but just ten—does not fulfill her destiny until she has accomplished 600 eggs—fifty dozen. That's what nature has laid out for the hen to do in the way of just unexhausted and unstimulated egg production, and she gives the hen eight years to do it in."

"The hen divides the fifty dozen stunt up among those eight years. Some years she may not turn out more than a couple of dozen, but when the eight years are up she will have managed her annual output so that the total has come out all right. Then the hen has ended her career as an egg producer, and too often, if she is in the hands of a thrifty owner, begins another career short and delusive—this time as the summer boarder spring chicken." —Pittsburgh Press.

Weight After Meals.

There is, or used to be, an idea that one weighs less after a meal than before, but that is nonsense. There is always a definite increase of weight after a meal, and with most people it is seriously uniform. After an average dinner washed down with the average amount of liquid—three-quarters of a pint—the average man will invariably find that he weighs two pounds more than he did before the meal. There seems to be no reason why a really determined dieter should not double that increase. A half pint of water or a breakfast cupful of tea weighs ten ounces, so that probably over half of the two pounds increase of weight after dinner is accounted for by the liquid part of the meal.—Manchester Guardian.

The Speed Limit.

Motorists going through a small town up in northern Indiana bear witness to the fact that sarcasm reaches a high stage of development there. Going into the town one is met by a sign reading, "Speed Limit 110 Miles an Hour." "Mighty decent people in this town," thinks the motorist. But before he has gone far he realizes the sarcasm fully. The streets are so rough and the road through there to Chicago has so many turns in it that it would be impossible to go faster than ten miles an hour without running into some one's front yard.—Indianapolis News.

Feed For Calves Six Months Old.

Alfalfa hay is a very good roughage for young calves. Care should be taken not to feed it too freely at first, as there is danger of its causing scours. As soon as they become accustomed to it they can be fed this hay very liberally. A very good mixture to supplement the hay would be 200 pounds ground barley, 200 pounds bran and 100 pounds oilmeal. One should feed enough of this mixture to keep the calves in good physical condition, but not fat.

Corn and Clover.

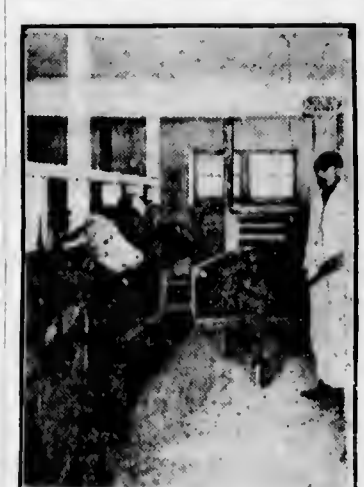

At the Wisconsin state fair Mrs. H. C. H. county had as one of its exhibits a circle of corn and clover with the picture of a dairy cow in the center, which bore the legend, "From corn and clover to butter fat."

HOW TO FEED COWS FOR MILK PRODUCTION

Give the cow a chance, and before you consign her to the butcher's block be certain that you are providing her with liberal allowances of the feeds which are good for milk and butter fat production.

This is the plea which F. G. Swoboda, agricultural representative for Langlade county, Wis., is making to save many alleged "bouders."

"The big lesson," he says, "which is to be learned from the long list of forty pound cows lately published by various cow testing associations is that most cows will produce if given a chance. When turned on our luxuriant northern grasses in mid-May they immediately respond at the milk pail. Old

Labor saving in feeding a large herd of dairy cattle is a matter that deserves consideration by dairymen. The illustration shows a herd facing a central alley through which the feed is wheeled. Some dairymen prefer to have the cows face the other way and use the central alley for returning the manure. These latter claim that cows should not face each other, as a diseased animal is more likely to spread infection, especially if afflicted with tuberculosis.

Milkers, new milkers and milkers in every other period of lactation then come forward with a larger flow.

The reason is not hard to find—succulent fresh grass, mixed with clover, alfalfa, or other high quality roughage, offers practically a balanced ration. That is what the animal's system craves, and, adequately supplied, the faithful cow expresses her appreciation by filling the milk bucket.

"The aim of the dairyman should be to provide his herd at all seasons of the year with as near summer pasture conditions as is possible."

Week Concrete Silos.

The builders of concrete silos should take especial pains to reinforce them suitably with heavy wire placed not less than a foot apart while the concrete is being laid. We heard of several instances where the concrete has cracked under the outward pressure of the silage. One instance occurred near Waterford, Wis., recently, where a silo had been filled to its capacity of 237 tons. When the ensilage began to heat and ferment the silo burst open, entailing a loss, it is reported, of over \$1,000. Not only should the concrete be well reinforced, but good cement should be used and enough to make a strong wall when mixed with the proper proportion of aggregate.—Hoard's Dairyman.

Most people sit back and criticize, while others get up the church suppers, organize the work of the charities and the lodges. This may be a pleasant lazy man's way of getting thru life, but it is not much to look back on when you reach the end of your career.

Excellent for Stomach Trouble.

"Chamberlain's Tablets are just fine for stomach trouble," writes Mrs. G. C. Dunn, Arnold, Pa. "I was bothered with this complaint for some time and frequently had bilious attacks. Chamberlain's Tablets afforded me great relief from the first, and since taking one bottle of them I feel like a different person." For sale by all dealers.

TIPPERARY.

The London Spectator, commenting on our newest soldier song says: "It is the swinging melody of a simple song of the music halls that England's soldiers now are marching most gaily and most gallantly to their hard-fought fields of honor."

"It's a long, long way to Tipperary. But my heart's right there!"

It is the memory of home and a girl, blithely put and with no hint of tears, that reaches Tommy's heart and cheers his weariness.

"This is a song," continues the Spectator, "which has carried our army from Aldershot to Southampton, and from Paris to the Aisne! It is the song which one of the sailors from the torpedoed 'Cressy' started singing in the water. 'It certainly is, if you have to swim there' went the comment, already historic."

Claims are being brought that "Tipperary" was made in America. "It was written in New York by Harry Williams, composer, also, of 'I'm Afraid to Go Home in the Dark,' and other like songs."

"It is not known whether he is of English birth or not. At any rate he has been in the habit of dividing his years between London and New York."

"The song was published by an English firm and was brought out in London, but aroused no enthusiasm."

"It was only after the war began and the weary marches were forced that some one in the ranks started this little ballad of the music halls and found in it all the requisites of an immortal war song."

On one part of the Calais battle line the German and English trenches have been worked by traverse to within fifty yards of each other, writes a war correspondent. Both sides are musically inclined. The Germans have the better bands and more of them. Reports from a score of places have told of the evening concert, in which the Germans furnish the melody and the English the applause. But some days the British find themselves absolutely starved for music. By various devices they make their need known to the enemy.

"Let's have a sing-song, what?" is the English way of putting it.

Usually the Germans agree. That evening, after firing has stopped the German band parades to a point between the lines. There they play until they are tired. German airs for the most part, but invariably mixing in a few of the favorites of their hostile hosts. An especially good band is certain of enthusiastic applause.

"We are singing 'Tipperary' all along the lines," they told me in Berlin. It's a catchy little air, is 'Tipperary' and the simple words are easily learned. So many of the Germans know English that weeks ago they had picked it up from hearing the fellows in the other trenches sing. They usually sing it better, too, for music is recognized as an aid to the warlike spirit in Germany. The Briton is a singularly toneless bird but because he likes music he makes an excellent audience. Almost every night, after the day's work is done—these model soldiers refer to fighting as work—some one in the German lines is certain to begin singing the simple little ditties of the Fatherland. If the trenches are near enough a request will be shouted over:

"Won't you sing 'Tipperary' next?" And so they sing the army song of England, and tired English soldiers sit in the darkness and listen. Sometimes, though not often, they join in singing:

TIPPERARY.

Up to mighty London
Came an Irishman one day.
As the streets are paved with gold,
Surely every one was gay:
Singing songs of Piccadilly, Strand and
Leicester square
Till Paddy got excited,
Then he shouted to them there:

Chorus.
"It's a long way to Tipperary,
It's a long way to go;
It's a long way to Tipperary,
To the sweetest girl I know;
Good bye Piccadilly,
Farewell Leicester Square
It's a long, long way to Tipperary
But my heart's right there!"

Paddy wrote a letter
To his Irish Molly O',
Saying, "Should you not receive it,
Write and let me know!
"If I make mistakes in spelling, Molly dear", said he
"Remember it's the pen that's bad,
Don't lay the blame on me."
Mollie wrote a neat reply to Irish Paddy O',
Saying, "Mike Maloney wants to marry me, and so
Leave the Strand and Piccadilly or you'll be to blame,
For love has fairly drove me ally—hoping you're the same."

Biliousness and Constipation Cured.

If you are ever troubled with biliousness or constipation you will be interested in the statement of R. F. Erwin, Peru, Ind. Seeing Chamberlain's Tablets so highly recommended, I bought a bottle of them and they helped me right away." For sale by all dealers.

RICHMOND MARKET GOOD.

We call your attention to the new letter, of the Madison Tobacco Warehouse at Richmond, who have now sold 3,000,000. They state that the market is steady to strong and high for good tobacco while the lower grades are low and show little or no improvement, but all good tobacco free from damage with color finds a fine market at high prices. Some days the market looks drab but it is due alone to poor and damaged crops only being offered. The prices this house quote are as good as can be found in any house in the country, and are considered very high for this year. Forest Stapp will sell over these floors a crop of some 16,000 to 20,000 pounds this week of high grade tobacco.

LONGER TERM FOR THE RURAL SCHOOL.

But few states in the Union have an average school term as short as that in Kentucky. At present almost every city and village in Kentucky has a term of at least eight or nine months, but it is not so with the rural schools, in only two or three counties of the state does the term extend beyond six months. This plan is very unjust and unfair to the farmers' child, and action should be taken at once, providing a plan whereby all rural schools shall have a term of at least eight months. There is no reason why the city child should have the opportunity for a nine months school, and deny commensurate rights to the rural child. The time has come when the practice of providing better houses, better teachers, longer terms and superior advantages to secure an education for the city child over that of the country child must cease. They are entitled to and should have equal advantages.

There was a time when the houses were so poor that an eight months school in many counties was not feasible, but that time has passed. Hundreds of new rural school houses have been erected during recent years, and there are but few houses in the State, at present, where the children could not be made comfortable in the coldest weather. Again, County High Schools are being provided for country children, and it is necessary that the country child have every advantage to prepare himself to enter these high schools. At present the term is too short, and with only one teacher and a large number of classes, disadvantages in the way of proper grading and less individual instruction the time is too short for the pupil to advance.

The taxpayers of the rural districts of the State of Kentucky with the help of the county board, should legislate and demand that the state and county give them an equal chance to educate their children with that of the city.

To Our Friends, In Garrard County:--

We have heard some talk lately, the kind that says don't quote me relative to some house some where getting just a little more for your tobacco than the "OLD RELIABLE MADISON". We can hardly blame the fellow that makes such a statement asking not to be quoted. We want to be quoted however, and want you to read the actual prices some crop lots have bought, on our floors this season. Don't let some fellow worry you by saying these prices aren't real. If he makes such a statement, he will not doubt ask you to keep it on the Q. T. Truth however needs no apology. You can quote anything we say to anybody. We give you some crop lots average below. Need not keep it quite, tell all your neighbors and friends. We want them and you to know it, just facts represented by dollars paid for tobacco. This is worth a whole barn full of cheap misrepresentation. That fools a few farmers for just a little while.

Schroll & Curtis, Richmond,	1985 pounds,	averaged	\$20.00
Dave Long, Garrard county,	2550 pounds,	averaged	\$21.40
Adkinson & Warren, Garrard county	3205 pounds,	averaged	\$20.93
Leslie Curtis, 2nd Crop, lot Richmond,	1960 pounds,	averaged	\$19.50
Zack Simpson & Son, Garrard county,	1555 pounds,	averaged	\$18.30
Zack Simpson & Son, Garrard county, 2 crop	1500 pounds,	averaged	\$17.15
Prather & Oldfield, Garrard county,	3500 pounds,	averaged	\$18.00
Lebus Roberts, Richmond,	4000 pounds,	averaged	\$17.35
Coy & Ross, Richmond,	6675 pounds,	averaged	\$18.00
L. T. Hoover, Lancaster,	1285 pounds,	averaged	\$17.10
Prather & Thomas, Garrard county,	2100 pounds,	averaged	\$17.00
Ed. P. Million, Red Crop, Richmond,	6750 pounds,	averaged	\$15.75
Robt Ross, Small Boy, Garrard county,	790 pounds,	averaged	\$16.00
J. N. Ross, Garrard county,	1400 pounds,	averaged	\$15.15
Burnan & Shelton, Richmond,	13,675 pounds,	averaged	\$14.76

We won't quote any crops as low as 14 1/2-15-16 cts, etc. We have had so many of them that it would take about all the papers edition to tell about them. If the other house and this means any house any where has, can equal or beat these prices, we are looking for them. Better take it slow and sell your tobacco where you get the most money. Remember the Madison House has led this market always in pounds, in prices and in floor space.

PACKAGES IN PORTUGAL

Messengers Carry Them, as Stores Do
Not Use Delivery Wagons.Light delivery in Portugal is done al-
most entirely by men and women. Deliv-
ery wagons, such as are used in
American cities, are unknown here.
Some of the large department stores
are now using motor trucks, but none
has introduced a special parcel carrier.Lisbon and Oporto, the only large
cities in the republic, are built on hills,
and most of the streets are very steep,
attaining a grade of 17 per cent. They
are paved with stone and generally are
in good condition. The roads immedi-
ately about these cities are fair and the
grades are easy. County highways
are a mixture of very good and very
bad. They are not kept up as they
should be and for short distances are
apt to be extremely rough.
Nearly all articles such as are de-
livered in the United States from a
light wagon or motor vehicle are sold
here by men and women, who go
through the streets crying their wares.
Fish, fowls, vegetables, bread, oil,
fruit, etc., are all carried on the head
or shoulders of the vendor. Delivery
of goods from small shops is made by
boys or by the "zangos," who is found
at every street corner. These men also
transport pianos, furniture and other
articles of a similar character.—Con-
sular Report.

MILITARY MESSAGES.

Some That Were Made Famous by
Their Rith and Bravoty.Of famous military messages there
are scores, beginning with the never
to be forgotten "Veni, vidi, vici" of
Caesar and that equally famous dis-
patch of Commodore Perry: "We have
met the enemy and they are ours." But
both were beaten for brevity by Gen-
eral Sir Robert Boyd, who while gov-
ernor of Gibraltar, being in need of
beef for his troops, wrote to the agent
in England this laconic dispatch:
"Browne, beef, Boyd." Browne sent
the stores with the reply, "Boyd, beef,
Browne."And this in turn recalls the story of
Peter de Drenx, the celebrated fighting
bishop of Heusvala, who, being taken
in arms by Richard Coeur de Lion, was
imprisoned and fettered. Pope Celestine
III, remonstrated in behalf of the
prelate, and in reply the king sent the
bishop's helmet and armor to Rome
with this neat dispatch taken from
Genesis xxxvii, 32: "Know now whether
it be thy son's coat or no." The
pope declined further intercession and
replied that the coat the king had sent
did not belong to a son of the church,
but of the camp, and the prisoner,
therefore, was at Richard's mercy.—

THE STATE AID ROAD LAW

Ques. What is meant by State aid for roads?
Ans. The appropriation of money from the State Treasury to
aid the counties in road improvement.
Ques. When was this law enacted?
Ans. By the 1914 General Assembly.
Ques. Why?
Ans. Because public sentiment demanded that steps be taken
to pull Kentucky out of the mud.
Ques. How was this money provided?
Ans. By levying a five-cent State tax on each one hundred dol-
lars of taxable wealth.Ques. What counties pay the larger portion of this tax?
Ans. The richer counties that already have their roads built.
Ques. What counties will receive the most benefit from this
law?
Ans. The poorer counties.
Ques. Why?
Ans. Because about 110 counties receive more money from this
fund than they pay into it.Ques. In what manner shall a county apply for State aid?
Ans. The fiscal court of any county may pass a resolution
stating that the public interest demands the improvement of a public
road or section thereof within the county, and requesting that it be
constructed or reconstructed with State aid. Such a resolution shall
contain a description of snell public road or section thereof.Ques. Who will determine the kind of surfacing to be used?
Ans. The Commissioner of Public Roads and Fiscal Courts by
mutual agreement.Ques. What kind of surfacing may be used on State aid roads?
Ans. Macadam or telford or other stone road or roads con-
structed of gravel or other similar materials, or an earth road, the
surface of which is properly crowned, ditched and smoothed, so that
water will not be retained thereon, or a road constructed of asphalt-
um, brick or other paving materials.Ques. What is the largest amount any one county can receive
from this fund annually?
Ans. Two per cent of the total fund, or about \$12,000.Ques. Which roads will receive State aid first?
Ans. Roads of the inter-county seat system.Ques. What is the inter-county seat system?
Ans. Roads connecting the county seats of adjoining counties
on the most direct and practical route.Ques. What per cent of the mileage of Kentucky is included in
this system?
Ans. About ten per cent.Ques. How much traffic will this system carry?
Ans. About eighty per cent of the total.Ques. What portion of the cost of these roads will the State
bear?
Ans. One-half, or a dollar for each dollar put up by the county.Ques. How is this money to be spent?
Ans. Under supervision of engineers furnished by the Depart-
ment of Public Roads.Ques. Is it necessary for a county to increase its tax levy to se-
cure State aid?
Ans. No, an amount not to exceed 25c of the 50c levy for gen-
eral purposes may be used for road purposes, and a portion of this
may be used in securing State aid.Ques. May private subscriptions be used in securing State aid?
Ans. Yes, if in the form of money and if it is placed to the credit
of the County Road Fund.Ques. Should the people along the road to be improved contrib-
ute?
Ans. Yes, they should contribute one-fourth to one-half of the
total cost of the road improvement. (If State aid is used, one-fourth;
if only the county participates, one-half.)Ques. Why?
Ans. Because they are most directly financially benefited.Ques. Is it necessary to vote a bond issue to secure State aid?
Ans. No.Ques. Then what is the advantage of a bond issue for roads?
Ans. 1. They enable the community to immediately realize the
benefit as such issues make possible the construction of a consid-
erable mileage, whereas cash taxation would provide but a small
mileage each year, thus indefinitely postponing the completion of the
road system.2. The cost per mile is lowered, as a larger mileage can be more
economically constructed than isolated stretches built at long in-
tervals.3. Maintenance is cheaper for the same reasons that apply to
construction.4. As posterity benefits by the development of the local re-
sources, posterity should help to bear the burden.5. The increase in the value of lands, and the volume of busi-
ness is immediate and substantial and is more than sufficient to meet
the increased tax rate necessary to pay the interest on, and to retire,
the bonds.Ques. What are the chief duties of the Department of Public
Roads?
Ans. To furnish, FREE OF COST, to the counties applying,
plans, specifications and estimates of cost, expert engineering advice,
and supervision for road or bridge improvement.Ques. Will the State pay back a part of the bond issue for road
improvement?
Ans. Yes.Ques. How much?
Ans. One-half.Ques. Under what conditions?
Ans. That the money be spent on the construction or recon-
struction of roads, under the supervision of the Department of Pub-
lic Roads.Ques. How will this money be paid back?
Ans. From year to year as the county's pro rata part of the
State aid money is available in the State Treasury, until it has re-
ceived one-half the amount so spent.Ques. How can your county secure Good Roads and Bridges?
Ans. By a systematic use of the engineering advice of the De-
partment of Public Roads of Kentucky, and by applying for State
aid.Ques. How can your county secure Good Roads and Bridges?
Ans. By a systematic use of the engineering advice of the De-
partment of Public Roads of Kentucky, and by applying for State
aid.Ques. How can your county secure Good Roads and Bridges?
